## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-24 are allowed.

2. The following is an examiner's statement of reasons for allowance: applicant's arguments have been reconsidered and found persuasive. It would not have been obvious to one of ordinary skill in the art to apply the arc welding teachings of Brennan et al. (US 5,347,101) to the high frequency resistance welding technique of Moe (US 4,736,084), as argue by the applicant. Furthermore, although, Moe discloses plural electrodes 6-9, he does not disclose the "at least three electrodes pressed against the wall of each tubular" as claimed in claims 1, 7, 16 and 20. The other claims are allowable at least because they depend on either of claims 1, 7, 16 or 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
